Firm Overview

PW LAW FIRM is a strategic legal advisory firm based in Medan, North Sumatra, Indonesia, focused on guiding investors, corporations, and business leaders through complex legal and regulatory environments across Sumatra.

We do not operate as a conventional law firm. We combine legal expertise, regulatory guidance, and on-the-ground strategy to deliver solutions that are legally sound and operationally executable.

With a deep understanding of Sumatra's economic landscape, including plantations, natural resources, land development, and regional investment structures, we assist clients in managing risk, securing legal certainty, and building sustainable business operations.

We're strategic partners who help clients structure investments, resolve disputes, navigate regulatory complexity, and manage land-related challenges.

At PW Law Firm, we believe that successful investment in emerging markets requires more than compliance – it requires strategy, control, and local intelligence.
